Reminder - Important Dates

- [Paper Submission Deadline](#) **31 October, 2018**

Paper Submissions

The CHEP 2018 proceedings will be published in the [EPJ Web of Conferences](#). Most of the instructions for authors are provided on the following [page](#). In addition:

1. Each article shall have at most 8 pages (references included) and use single-column format. This applies to oral presentations and posters.
2. Each article must be submitted by a single person who shall represent all co-authors of the article.
3. Articles must be submitted in PDF form. Please use the given LaTeX or Microsoft Word template, but only submit the PDF version. Please check if the PDF version meets the provided guidelines.
4. Please follow the clearly documented style guidelines. Adherence to those guidelines will be checked by the reviewers and violations will have to be corrected by the authors.
5. Please provide proper references to software packages and frameworks that were vital for the work covered by your article. Guidelines are available from the [plenary presentation by Dan Katz](#).
6. Please print the provided copyright form, fill it out and scan the completed form. Alternatively, use a PDF editor instead, but mind that an actual signature is required. Please upload the completed form along with your articles, as explained below.
7. The deadline for the initial submission of your articles is: **Wed Oct 31 at 23:59 UTC**

Mind that you may need to have your article approved first by your experiment and/or institute: please check what applies in your case! During the review process you may be asked to provide revised versions. We aim to finish the reviews and revisions by **Dec 31st 2018**.

To manage the workflows of article submissions, reviews and revisions, we use the SAGA system of EDP Sciences. Please follow the instructions to create yourself a [SAGA account](#). When submitting an article, please select the section corresponding to the track of the conference contribution.

Please contact chep2018-pc@cern.ch for any questions or comments about the publication procedures. Thanks for your efforts and we look forward to your high-quality articles!

Conference Recordings

We are processing the recordings of all talks and they will be uploaded in [youtube](#) soon.

Photos

We have collected photos from the conference. Here is the [link](#) to Google Photos.

Please let us know at chep2018-chairs@cern.ch in case you find some pictures necessary to be removed. Also if you wish to share your photos, send us a message.

Contact

The conference chairs are Peter Hristov (CERN), Petya Vasileva (CERN) and Vassil Vassilev (Princeton University). Questions about the scientific organization, sponsorship or other enquiries should be addressed to chep2018-chairs@cern.ch.
